Missouri Department of Health and Senior Services 2015 Dead Bird Reporting Week 35 Ending September 5, 2015

The Missouri Department of Health and Senior Services (DHSS) no longer tests dead birds for the presence of West Nile virus (WNV). Although birds die from many different infectious diseases or exposure to toxins, DHSS' Internet dead bird reporting form is being used to track reports of dead birds because they may be an early sign of WNV activity in an area.

Users of these data are cautioned that reports from the public are not authenticated or confirmed in any way and are subject to inaccuracies. For more information on reporting and disposing of dead birds, go to <https://webapp03.dhss.mo.gov/DeadBird/Index.aspx>

SUMMARY OF REPORTS THROUGH SEPTEMBER 5, 2015	
COUNTY OR CITY	NUMBER OF DEAD BIRD REPORTS PER COUNTY/CITY
BOONE	1
CLAY	2
